

Water Heater Rebates

Alcoa Electric

residential and small commercial customers can get a rebate when they purchase and install a new electric water heater. Below are the rebate amounts:

New Water Heater – New Construction: \$25.00 Rebate

For Replacement – Electric to Electric: \$25.00 Rebate

Conversion – Gas to Electric: \$100.00 Rebate

Requirements to Receive Rebates:

- Water Heater program is available for new and retrofit homes.
- Customer has account with Alcoa Electric Department.
- Customer purchases electric water heater.
- Customer can only participate once every 5 years at same residence.
- Customer provides receipt stating where it was purchased, date and amount.
- Gas conversion, customers need to provide a recent gas bill
- Distributor has right to a visual inspection after customer has installed water heater.
- Rebate will be mailed within 30 days after customer delivers receipt to Alcoa Electric.
- Alcoa Electric does not accept any responsibility for improper installation.
- Small commercial customers are eligible for a rebate only if they are charged at the electric rate 40 code.
